

Team Leader Overview

Small Engine Rats Race Club

Team leaders are members that are authorized to invite and give memberships to friends and family. Those memberships will be overlooked by the club leaders. All members must fill out all the proper paper work.

Team leaders are responsible for the ones they give memberships out to. Any issues will fall back onto the Team Leader.

Team leaders can also race. Any members they invite in as a racer can race. They may race there own kart under there own numbers and names however they will be know as under the team that brought them in.

For example if Norrid Racing invites a friend to race. That racer will be tagged as racing with or under Norrid Racing.

Exactly how each individual makes this work is up to them. You could have multiple racers under one team name but they could all pay there races and keep there winning separate.

They could all take care and handle there own karts and fees.

However a Team could structure in a way that they all pitch in and help each other out. Build a team fund and use it for all racers entry's. A team could split and share any winnings and save some back for repair and event cost.

Team members can file to start there own team also.

All racers must start as a rookie. Moving up in skill level is done in a few ways. Winning races, Showing safe driving practice, and over all on track and off the track skill.
